

Women Peacemakers: What we Can Learn From Them is a guidebook for all of us who strive to lead meaningful lives. Barbe Chambliss has committed to peacemaking in an unwavering and compelling way. By defining it, and then sharing stories, honestly and compassionately, of women who have impacted others with peacemaking acts, Chambliss illuminates the transformational power of being a peacemaker. Finally, the invitation to us, as readers, to do our own act of peacemaking transforms this book from an outward panorama to an inward inquiry which leaves the reader with attainable and transformative steps. In a time when isolation and detachment are ever-present, Chambliss invites us to engage, collaborate and act to improve ourselves and our world.
